12-Month Continuous Eligibility	No	22 Medicaid, 30 CHIP, 22 Aligned Medicaid and separate CHIP

Sources and Notes

Children's Health Fact Sheets

All data are drawn directly from statehealthfacts.org, Kaiser's continuously updated database for state-level health data. More detailed notes and sources are available by following the online links from each topic on the fact sheet.

Demographic Profile and Health Insurance Coverage

Total Child Population, Children Living in Poverty, Children by Race/Ethnicity, Children by Citizenship, Children with Medicaid, Uninsured Children, Children with Employer-Sponsored
 Source: KCMU and Urban Institute analysis of the Current Population Surveys (CPS), March 2009 and 2010. Notes: These demographic data may differ from Census Bureau figures due to grouping by health insurance unit (HIU) rather than household. State figures are based on pooled 2008 and 2009 data; U.S. figures are based on 2009 data. For more information on this revision, please see <http://www.statehealthfacts.org/cgi-bin/healthfacts.cgi?action=methodology>. NSD: Not Sufficient Data

Health Status

Infant Mortality and Childhood Immunizations

Low Birthweight Infants and Prenatal Care

Source: The Centers for Disease Control and Prevention. National Center for Health Statistics. VitalStats. <http://www.cdc.gov/nchs/vitalstats.htm>. National Vital Statistics Report, Vol. 58, No. 1, 2009, Division of Vital Statistics, NCHS. Notes: Prenatal care excludes data for FL, ID, KS, KY, ND, NH, NY, PA, SC, TN, TX, VT and WA, which implemented the 2003 Revision of the U.S. Certificate of Live Birth after January 1, 2005.

Medicaid and CHIP

Total Medicaid Spending, Enrollment, Per Enrollee Medicaid Spending, and Distribution by Group

Source: The Urban Institute and KCMU estimates based on data from Medicaid Statistical Information System (MSIS) reports from the Centers for Medicare and Medicaid Services (CMS) for FY2007.

Children's Medicaid/CHIP Participation Rates

Source: *Who And Where Are The Children Yet To Enroll In Medicaid And The Children's Health Insurance Program?*, Health Affairs, October 2010. Available at: <http://content.healthaffairs.org/cgi/content/abstract/hlthaff.2010.0747>.

Medicaid Eligibility Levels, CHIP Eligibility Levels, and Enrollment Practices

Based on a survey conducted by The Center for Budget and Policy Priorities for KCMU; and Medicaid Eligibility, December 2009, DHHS, CMS. Notes: All dollar figures represent the annual income for a family of three. For Parents, the U.S. figures represent the median annual income in dollars and as a percent of the FPL. For other groups, the U.S. figures represent the federal minimum annual income in dollars and as a percent of the FPL.
