# FAMILY PROGRAMS HAWAII

Receive 2 DHS Approved Training Hours!

## Understanding and Responding to Youth's Challenging Behaviors

Presented By: Dr. Chanel Kealoha

### ABOUT THE SPEAKER:

As the leading psychologist in the State of Hawaii for developmental and intellectual disabilities, Dr. Kealoha provides clinical services to children, adolescents, and adults dealing with various emotional, psychological, and mental health issues. She earned her Bachelor's Degree at the University of Southern California then went on to obtain her Master's and Doctorate degrees in Clinical Psychology at Pepperdine University. Dr. Kealoha's clinical background has been largely influenced by her interest in culturally appropriate treatment and assessment. She completed her Fellowship at Kapiolani Medical Center. It was there that she received specialized training in child/adolescent abuse and neglect, working with Hawaii families receiving services and support from Child Welfare Services. Through her research, Dr. Kealoha has also sought to improve the relevance of mental health care and education for the Native Hawaiian community.

- FREE training and childcare open to all resource, adoptive, guardianship, permanency, and kinship families.
- Childcare limited to registered children, ages 3-12, based on availability.
- Breakfast will be provided during the first half hour. Training and childcare will follow

To RSVP, please contact the Warm Line at 1-866-545-0882 (toll free)

or email [WarmLine@FamilyProgramsHi.org](mailto:WarmLine@FamilyProgramsHi.org)

Please leave your name, contact number, the names, ages, and special conditions of the children needing care, and whether you are a resource, adoptive, guardianship, permanency, or kinship family.

**Space is limited.**

### Caregivers Will:

- Learn about childhood trauma and abuse
- Learn how you can create a stable environment for youth in your care
- Learn to recognize behavior triggers
- Learn to help youth develop ways to cope and communicate their needs
- Learn about professional guidance and support for youth.
- Learn about the symptoms and needs of common mental health conditions.
